

Do I need a parasite cleanse?

Your body is home to bacteria, viruses, amoeba, mould, fungi and also worms—collectively known as your *microbiome*.

When any of these 'bugs' get out of balance they can cause illness.

If you suffer from

- Nausea, abdominal pain
- Frequent, loose watery stools
- Constipation, IBS, bloating
- Traveller's diarrhoea
- Itchy skin irritations
- Fatigue, exhaustion
- Anaemia, weight loss
- Food/chemical sensitivity
- Brain fog, mood issues

If so, you may have a parasite infection.

WHY THIS PROGRAM?

This uniquely designed 3 step program helps to achieve a comprehensive cleanse.

PARASTART™ • PARAFLUSH™ • PARACLEAN™

All working cohesively together to help restore your bowel and gut to optimum health.

A 3 step program to help you achieve a comprehensive cleanse.

The Complete Parasite Kit™

Proprietary *herbal* blends to help restore your *bowel and gut* to optimum *health*.

**PRODUCT
of AUSTRALIA**

STEP 1.

Parastart™

FIRST REMOVE PARASITES

Targets parasite overgrowth.

The first step in any parasite program is to target parasite overgrowth. *Parastart™* is designed to support the removal of parasites and assist elimination and gentle detoxification.

Take 2 teaspoons once a day before breakfast until all product is used.

STEP 2.

Paraflush™

NOW, CLEAN UP DIE-OFF

Natural bowel cleanse.

When parasites live in your body they produce toxic waste products. When you do a parasite cleanse, large amounts of parasites can be rapidly killed. In the process, what is known as 'die off' occurs and toxic by-products are released into the body. *Paraflush™* is designed to help rid the body of these toxins.

Take 25ml once a day in a glass of filtered water in the evening before bed until all product is used. When complete, start Step 3—*Paraclean™*.

STEP 3.

Paraclean™

FINAL STAGE

Enhance your cleanse by reducing worms, fungus and mould.

Parasites can hide out in all the corners of the body. *Paraclean™* is designed to target the hard to get at 'bugs', especially mould and fungus with a powerful blend of anti-parasitic herbs.

When Step 2 *Paraflush™* is complete, begin *Paraclean™*. Take 12-15 drops of *Paraclean™* before breakfast and before evening meal, whilst still continuing to take *Parastart™* first thing in the morning until all products are used.
